- Ability to work in teams
- Persistence and perseverance to obtain the desired results

ABOUT ME

Native Android Developer with 3 years of experience working on different kind of projects, both on companies with other professionals and on my own. I have passion for building new apps or improve existing ones, and I'm always looking to learn new topics to do a better job.

WORK EXPERIENCE

- **Freelance Android Developer (Java)**:
  Sep-Oct, 2020. QIERO App.
  Building new screens while communicating constantly and acting on the feedback from the client at a delivery food MVP app for a startup from Chile.
- **Android Developer Jr/Ssr (Java/Kotlin)**:
  Jan 2021-Nov 2022. PDS S.A.
  Minor corrections, visual changes, complex developments that would have a major impact at the whole ecosystem formed by several small apps that depends on a bigger main one for managing sales on food places for a local company with clients on 5 countries. Checking PR, assisting coworkers with less experience on the project and as developers.
- **Android Developer Ssr (Kotlin)**:
  Nov 2022 to now. Flux IT/Banco Galicia.
  Being part of a fully remote, multidisciplinary team including Mobile (Android/IOS), different layers of Backend, Design, Web, QA, PO, TO, Analyst and Scrum Master roles to develop new features or extend/fix some existing ones for the homebanking app from the Galicia bank.

CERTIFICATES

- **Android Professional Course, Android with Kotlin, JAVA, Kotlin,** by CodigoFacilito.
- **Building Industry-Level Apps With Multi-Module Architecture**, **Professional App Development With CI/CD** and **Mastering Automated Testing of Industry-Level Android Apps** by Philipp Lackner's course
